COX AND POMERENE SCORE HARDING AND DAVIS REGIMES

DAYTON, O., Jan. 26.—(By the Associated Press)—Breaking his silence of more than a year, James M. Cox, Democratic candidate for president in 1920, at a Jackson Day banquet here last night, took to task the Harding administration, both on its domestic and foreign policies. In his criticism, he was aided by United States Senators Pomerene of Ohio, and Harrison of Mississippi, and Mrs. Margaret Fuller of Pittsburgh.

Criticizes Harding's Policy

Criticizing the economic policy of President Harding's administration, Mr. Cox asserted, attempt is being made to bring better times "by resort to noisy methods of a circus." Attributing the distress in Russia to socialism, the former Democratic standard bearer said the distress in America is due "to the treachery of Lodge."

Speaking of the Washington armament conference and particularly the four-power Pacific agreement, Mr. Cox asserted that "prudence might suggest that judgment be reserved until we know what the treaty means and the extent of Mr. Lodge's secret understandings." He declared that Senator Lodge had declared that the "real meanings was in the unwritten word."

Not Retreated a Step

Former Governor Cox made plain that he stands today on the League of Nations as he stood during the 1920 campaign, declaring "We stand in our very tracks, just where we were when the votes were counted. We have not retreated a step. The flag still flies and we are ready at next fight."

In Memorial hall, where more than 1,500 were served at a banquet and where crowded galleries listened, the former presidential candidate's words were cheered time and again. A wild shout was unleashed when he declared that the Republicans have rejected Senator Pomerene by creating the disgraceful Newberry episode in the United States Senate.

Pomerene Condemns Seating of Newberry

While both senators took a whirl at condemning the domestic policies of the administration, Mr. Pomerene devoted considerable time to condemnation of the action of the senate in seating Senator Newberry, of Michigan, characterizing the senate's action as a "tragedy against political morals."

The senator asked if "ever a public body so discredited itself in the eyes of the American people."

The Mississippi senator discussed the tariff situation asserting that the Republicans had been trying for (Continued on Page Four)

19 Million Suffering For Want Of Food In Russia

GENEVA, Jan. 26.—(By the A. P.)—Nineteen million persons are suffering for want of food in Russia, said Dr. Friedhof, international committee of relief in Russia yesterday. Dr. Naumen said he was dissatisfied with the way in which the Russian government had acted under the agreement signed on August 27, the transportation situation especially leaving much to be desired.

In giving the new details of the situation in Russia, he declared the total population affected was 38,000,000, and it was now too late to save all, even if the workers were able to use the railroad lines at full capacity. As a matter of fact, it would only be possible to move sufficient grain between now and the harvest to save 6,000,000 or 7,000,000 persons.

Furthermore, the committee had insufficient funds at present to buy the necessary stocks, the 28,000,000 gold francs at its disposal being inadequate. More funds must be raised before the month of May, after which all help would be in vain.

190 KILLED, 1,000 INJURED IN OUTBREAKS IN INDIA

LONDON, January 26.—(By the Associated Press)—A cable dispatch to the Evening Star from Rome today says it is reported there that fresh disorders have broken out in Cairo, Egypt, resulting in 190 persons being killed and more than 1,000 others injured. British troops, the message adds, quelled the insurrection.

Historic Ritual In St. Peters

ROME, Jan. 26.—(By The Associated Press)—Pope Benedict XV was entombed with solemn and impressive ceremony this afternoon. His body, enclosed in three caskets, and dressed in the pontifical robes, lies in a crypt under the great basilica of St. Peter's to the right of the entrance.

The senator asked if "ever a public body so discredited itself in the eyes of the American people."

FAMILIES FLEE FLAMES IN THIN ATTIRE

CHICAGO, January 26.—(By the Associated Press)—Fire seriously damaged the Devon avenue car barn of the Chicago surface lines early today, destroyed 300 street cars and forced fifty families living nearby to the streets scantily clad. Wellington Fish, general manager of the surface lines, said the loss would be approximately \$1,500,000.

Two hundred other street cars were saved when, with the motive power automatically shut off, they were coupled together and hauled from the barn by motor trucks.

Child Sculptress Now A Dancer

Albertina Vitaz, 17, Chicago, is now achieving fame as one of the premiere dancers in the Fokine ballet at the New York Hippodrome. At six she won a prize for modeling. Her first dancing lessons were in secret because her mother opposed a stage career.

COALITION OF INTERESTS IN LABOR IS PLANNED

CHICAGO, January 26.—(By the Associated Press)—According to a report published today, plans for a coalition of all factors in public life friendly to labor have been instituted by heads of fifteen of the sixteen railroad unions and invitations extended for a general conference to be held here on February 20 to perfect such an organization.

The purpose of forming such an amalgamation, according to the report, is to further the interest of labor and to throw the support of labor to candidates for public office that are favorable to it, regardless of political party.

Invitations to attend the conference, it was said, have been extended to heads of the Socialist party, the Non-partisan party, the Farmer-Labor party, members of the "Committee of Forty-eight" and the American Federation of Labor, as well as other labor chiefs.

Amnesia Victim Is Found

Mrs. Aubrey Bull, wife of a New York bank teller, is back at her home in Ridgewood, N. Y. She disappeared Dec. 31 with her daughter, Eleanor Louise, seven, and police of many states searched for her. She was located at Mt. Oilead, N. C., suffering with a temporary loss of memory.

RUN A WAY TRUCK KILLS PROMINENT AKRON MEN

AKRON, O., January 26.—(By the Associated Press)—With the death of C. M. Woodruff, business manager of the Akron public school system, at 11:35 last night the toll of lives in a runaway truck accident, which happened at 6:20 Wednesday evening, was increased to two. Judge Philip H. Treash, of the court of appeals who was killed instantly was the other victim.

Woodruff suffered a fractured skull and severe cuts about the body. Surgeons feared that he would not survive an operation, and so none was performed. He did not regain consciousness.

Judge Treash suffered a broken neck and fractured skull.

The charge of manslaughter, which was first placed against Elmer Gough, truck driver, has been changed by police to a temporary charge of suspicion, awaiting instructions from the prosecuting attorney's office.

The accident, occurring in the downtown section, was seen by hundreds.

Declares He Was Robbed By Legion Friends And Fired By Vets' Bureau

WASHINGTON, D. C., January 26.—(By the Associated Press)—Robert Green, who had been discharged as an employee of the veterans' bureau after testifying in the senate investigation of illegal soldier hangings, was made by Charles P. Green, of Minneapolis, in letters and telegrams received by Senator Watson, Democrat, Georgia, and read today to the investigating committee.

Green declared in his communications that en route to his home "American Legion friends" at Cincinnati had stolen his suit case containing his army discharges, decorations and other documents. On reaching Minneapolis, he charged, he was informed by the veterans' bureau office there that his services were no longer required.

Senator Watson in presenting the charges said he knew nothing of the circumstances and did not contend that they demanded committee action, but demanded he would ask Director Forbes, of the bureau, for a report.

U. S. Adverse To Genoa Parley Now

WASHINGTON, D. C., January 26.—(By the Associated Press)—Indications were given in official circles today that the United States is adverse to participation in a general European economic conference, should such a meeting be held at the time set for the Genoa gathering, but would look with more favor on a conference to be held at a later date.

Harding Acts To Bring Japan And China Together On Shantung Obstacles

WASHINGTON, D. C., January 26.—(By the Associated Press)—The Shantung controversy had been brought under the spotlight today through President Harding's direct move to bring Japan and China together on the issue that now appears to present the only serious obstacle to a speedy conclusion of the whole range of arms conference negotiations.

The result of the president's direct appeal to Minister Sze, of the Chinese delegation, who went to the White House late yesterday with Secretary Hughes, that China accept the latest compromise offer on the Tsingtau railroad issue, appeared today to hinge largely on the attitude of Peking.

Acceptance by the Japanese delegates of the retired offer of "good offices" by Secretary Hughes and Arthur J. Balfour, hitherto declined, was understood to have opened the way for the president's move to secure Chinese acceptance of the compromise sponsored by those officials. While there was said to have been no formal pledge of approval by Japan, her acceptance was regarded as a foregone conclusion. Under the proposal Japan would abandon her proposition for a loan to China, the latter purchasing the railroad with treasury notes payable at option free to fifteen years hence. China's concession would be withdrawal of

Government To Sue Plane Manufacturers

WASHINGTON, D. C., January 26.—(By the Associated Press)—The government is ready to bring suit against the Dayton-Wright Aircraft Corporation to recover a total of more than \$7,000,000 in alleged overpayments on war contracts, Attorney General Daugherty announced today.

The attorney general in making the announcement said the war funds bureau of the justice department under the direction of Guy D. Goff, the assistant to the attorney general, cooperating with war department accountants, had been working for some time on aircraft cases with the result that the government was now prepared to begin suits for the recovery of large amounts which the reports of the government auditor show were overpaid on cost plus contracts for aircraft production.

Government accountants had reported, he said, overpayments to the

Body Covered With Red Vell

Cardinal Cagliero, archbishop of Frascati, and the first cardinal created by Benedict, covered the body with a large red vell fringed with gold, and placed at the feet of a brass cylinder, upon which was inscribed a succinct history of the life and pontificate of the late pope.

Finally, absolutism was given, the coffin was sealed with ribbons of violet silk and the cover was screwed down.

The burial act was then read and funeral transfer of the body was made by the sacred college to the chapter of the basilica, this being only registered. The coffin was thereupon sealed with the apostolic palace seal.

The episcopal coffin in which the body rested was placed in a lead casket, the ends of which were immediately soldered and both were deposited in a hardwood casket upon which the same seals were affixed as on the first.

Newspapers, And What They Should Publish, Reduced To Question Of Cold Figures

NEW YORK, Jan. 26.—Newspapers, and what they should publish, have long been a puzzle to the layman, but a class of budding journalists at Columbia has reduced the question to cold figures. One hundred embryo Horace Greeleys have passed on the question of what news really is.

Four prefer to read scandal, while 20 dislike it; 20 prefer politics and 3 find such news objectionable; 25 like news from foreign lands, while 3 don't; 14 are partial to the dramatic section of the newspaper, and not one would wish it deleted; sports are read by 14 students; four would as soon the sports department were omitted; eight delight in criminal news, 16 deplore its publication; economic news is a favorite by 8 to 2; finance takes the short end by a 4 to 13 vote; social news is read by four and scorned by nine; legal news meets the same fate on a basis of 2 to 13.

Thirty-six of the students said they chose what to read by what the headlines said; 27 judged the desirability of news by the department in which it appeared.

Eighteen of the future journalists believed newspapers created public opinion; 21 that newspapers followed public opinion; 13 that the papers both led and followed.

Sixty-eight per cent of the class agreed that newspapers promote public welfare.

Thirty per cent of the class were "casual" readers of advertising with clothing and department store ads in the lead.

Proportion Of Married Men To Total Male Population Shows Increase

WASHINGTON, D. C., January 26.—The proportion of married men to the total male population of the country fifteen years of age and over increased from 55.8 per cent to 59.2 per cent in the ten years preceding the 1920 census, according to a compilation of marital statistics made public today by the census bureau.

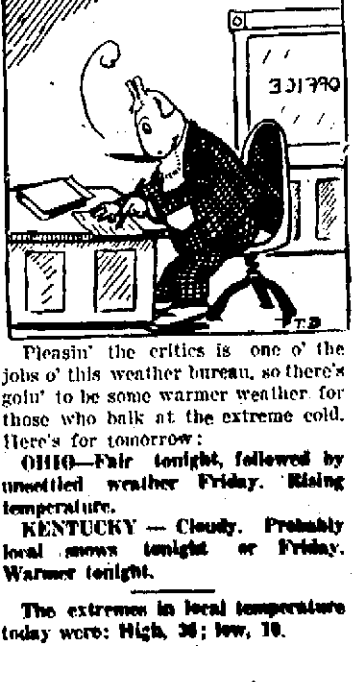

The bureau believed, however, that this was probably more indicative of a change in the age composition of the population—an increase in the percentage of males between 15 and 25 years of age due to increased immigration—than a growing propensity to matrimony.

Of the total male population of 55,900,431, above the 15 year classification, the census figures showed 21,840,296 married, 1,758,208 widowed, and 23,281 divorced, the latter figure, however, including none divorced and remarried. The divorce total showed an increase of 20 per cent in its ratio to the total population during the ten-year period, constituting six-tenths of one per cent of the latter against five-tenths in 1910. Although, due to the absence of the wives of many foreign-born residents, the number of married women was shown to be about 500,000 less than the male total, the number of divorced women exceeded men by approximately 40,000, representing closely the differences between the number of men and women remarried after divorce.

By states, Massachusetts led the field in the proportion of single women with a percentage of 34.4, although the District of Columbia exceeded this with 37.3 per cent.

Manly Revival Is In Full Swing

Mark 10:17 was the text: "What shall I do that I may inherit eternal life?" The petition of the moralist. It is assumed that this man was sincere for the context says Jesus loved him. The moralist is one who tries to cultivate what is right between man and man. It was a great spiritual crisis when this request of his was addressed to Jesus. Life is full of those crises, but they are not always detected.

Napoleon says, "War has such moments, ten minutes or even one minute will decide the fate of a battle." There are such times in our lives both physical and spiritual. Times when truth and spirit strike as they never struck before.

This man was never so moved before. This was his last possibly his first opportunity to speak to Jesus. He never saw the Savior again.

There come times in our experience when we must say "yes" or "no."

If "yes" in that word may be the germ of life. If "no" in that "no" may be the germ of death. This man had every thing but one thing, "peace," that, wealth cannot buy. He had youth but it could not last more than twenty years. Eternal life is eternal youth. Speak about a million years, it is all youth. After that what? Another million years. Wealth is all right if it is the right kind, but it was barring him from God. This man went to Jesus whom he believed to know all about eternal life. He asked a sensible question in a sensible way. If your boy does as you have done will it help or hinder his success?

Does Jesus say to any of us "one thing thou lackest"? A man can have

wealth, a good mind, good body and good morals and yet be lost. This man gave up the future for the present.

The big choir is putting forth more and more effort and the number last night by the mixed quartet composed of Ora Blair, W. C. Halstead, Helen Crabtree and Henry Burton was especially pleasing. Subject for this evening "Finding Rest for the Soul." Services each evening at 7:15. Public invited.

Helps digestion —and cleans a coated tongue

Thousands of men and women have found relief from various digestive disturbances by using Fleischmann's Yeast.

It is human nature to want to find out "why." So far as science can tell us this is the reason:

Fleischmann's Yeast is a food abundant in certain elements which are necessary to health and life itself. It promotes the flow of bile and of pancreatic juice. It has a remarkably beneficial effect on the whole digestive process. It cleans a coated tongue.

Try Fleischmann's fresh yeast in orange juice or in milk. Make it in milk shakes and malted milk. Women like it spread on bread or crackers.

Keep your digestion in the pink and condition and your tongue clean and healthy by eating 2 or 3 cakes of Fleischmann's Yeast fresh every day before or between meals. Secure it at Fleischmann's Yeast—the familiar do-fail package with the yellow label. Place a standing order with your grocer today.

Here On Visit

J. Y. Morgan, a former Portsmouth man, now located at Oklahoma City, was in the city Wednesday and today for a short visit with old friends.

Before leaving here in 1905 Mr. Morgan was employed as a piano salesman by J. V. Bell and on going to the southwest hooked up in the oil business and has prospered. He is now temporarily at Bowling Green, Ky., where an oil operation is being conducted under his supervision. Two producing wells have already been struck at Bowling Green and the prospects there are extremely good, according to Mr. Morgan. The Waller brothers, of McDermott, who formerly conducted a stone business at Bowling Green, are interested in the oil operations there.

SHERMAN TECH TO BE RIGHT UP TO MINUTE

CAMP SHERMAN, Jan. 26.—"The government vocational school at Chillicothe will be equal to the best and superior to many within three weeks after all apparatus is installed," according to Col. Robert I. Rees, bureau second-in-command after an inspection of Sherman Tech.

The basis on which the work is laid out is entirely satisfactory. The housing facilities are satisfactory and the men are happy and contented. The students, he said, are receiving training on actual jobs. He added that there was only "a small percentage of malcontents such as will be found anywhere."

Colonel Rees' report reached Sherman Tech Wednesday. It was made at Washington, D. C., following his inspection here.

three years to enact a tariff law but "up to this hour it serenely sleeps in the rooms of the senate finance committee."**Play State Administration**
Both Governor Cox and Senator Pomerene devoted considerable attention to the state administration, particularly criticizing the reorganization code.

The former governor urged defeat of supreme court judges who had voted to sustain the law as an emergency measure, thereby barring a referendum, asserting that "never before their God had they perpetrated so base a falsehood."

Build Up Political Machine
Senator Pomerene declared the legislature had "written a lie" into the law, and declared it to be an emergency, and that Governor Davis approved a lie when he approved the measure, adding that Governor Davis only wanted the law to "build up a political machine."**Says Davis Will Be Beaten**
The senator predicted victory for the next Democratic candidate for governor, asserting that "if the Republicans do not place Governor Davis again at the head of their ticket, they confess his failure, and if they do place him there, they are doomed to defeat."

Senator Pomerene said Governor Cox was a million votes stronger than any candidate voted for in the San Francisco convention, and that his defeat was the result only of discontent. He referred to the national and state administrations as "hypocrisy in power."

Senator Harrison
Speaking of the legislative record of the Republican Congress, Senator Harrison declared the "same vaselating and uncertain policy that has marked the present administration's foreign policy has attended legislation affecting our domestic problems."

"For three years," Senator Harrison declared, "the Republican Congress has been trying to frame a tariff measure and up to this hour it serenely sleeps in the rooms of the senate finance committee."

"It is now beginning to dawn upon the Republican leaders that the representation of the campaign of three years ago, that a revision of the tariff was necessary to the prosperity of the country, has now dissipated and they are beginning to see that no wise tariff legislation can be framed with the economic structure of the world in such a chaotic and unsettled condition."

Senator Harrison asserted that the disarmament conference was "held not because of President Harding but in spite of him," as the idea was contained in the League of Nations and the sentiment for disarmament was crystallized through the persistent efforts of a militant Democratic minority aided by Senator Borah and his colleagues."

Text of Cox's AddressMr. Cox said in part:
"As I interpret prophecies, the defeated candidate for the presidency should hold to the unspoken word until time has brought the unmistakable evidence of payment or default by those in power on campaign pledges."

"Almost a full year has elapsed and very properly can we apply an analysis of its developments. The ruins of war still mar the international perspective. Willing industry is without the aid of financial credits. Countries solvent are not rich in natural resources, are in idleness and misery. The reaction true to prophecy is upon us and every community is affected. The echoing cry of 'America first' is a mockery to

human intelligence as unhappy experience tells us that we are a part of the whole world in need, by the will of Almighty God, and in practicality by the logic of nature's laws—Republican dictum to the contrary notwithstanding.

"Farm products have diminished in price much below the labor cost of production; vast inventories of sheep and wool have followed the downward trend until thousands of farmers and business concerns are hopelessly insolvent. Only the resiliency of our banking system has averted the most destructive panic in all history. Inventories have diminished in value, but debts remain the same. There can be but one final result to this situation."

"Treachery of Lodgins"
"And how needless it all has been! When peace came Europe needed rebuilding. America had the supplies. Europe required credit. America had a prosperity upon which credit could have been given. The distress in Russia is chargeable to the terrors of Sovietism; the distress in America to the treachery of Lodgins."

"The first essential thing to our prosperity is the formal recognition by our government of the fundamental cause of depression. Since this could only be acceptance of the theories of Woodrow Wilson, there is none only for the belated relief that will come from the pressure of public opinion."

Noisy Methods of Circus
"Every economist and statesman in the world whose mental processes are free from ulterior thought, admit that the house of civilization cannot be put in order without the co-operation of the nation possessing both the lending gold supply and the facilities of tremendous productivity. In the face of these fundamental truths, the administration at Washington is vainly trying to bring better times, by resort to the noisy methods of a circus."

"Thousands of Republicans now realize that present leaders of their party in the making of policy have profaned Republican history, and ignored every thought of an honored inheritance, by forsaking the soul of Abraham Lincoln for the spleen of Henry Cabot Lodge. Abject surrender has been made to Mr. Lodge."

Drawing Nearer to League
"With deliberate industry the administration at Washington has for almost twelve months faced the setting sun—and yet the currents of public opinion have steadily bore the destiny of America. Eastward, Eastward, nearer each day to the seat of the League of Nations at Geneva."

"Of the present treaty between the governments of the United States, Great Britain, France and Japan, pending eight suggest that judgment be reserved until we know what the treaty means and the extent of Mr. Lodge's secret understandings. The president gave interpretations of the written word; Lodge instantly corrected him with the statement that the real meaning was in the unwritten word—in the understandings between the representatives of which Mr. Lodge had refrained from mentioning when he addressed his countrymen. Just when nations seemed committed to open diplomacy, Mr. Lodge in the name of America resorted to the diplomatic methods of old."

Treaty Creates Division

"In its behalf it is said of the treaty that it reveals the principle of submission and gives impression against external aggression. On the other hand it creates a group of nations, and thus may encourage the establishment of other groups. Even though it may be based upon the sincere purpose of defense, it might imply aggression to other nations and they in that concept might organize. This treaty creates division of moral purposes. The League of Nations contemplates the merging of purpose. This treaty sets up a new enterprise that may lead to other like projects. The League of Nations assembles all nations deserving of name. If the present pact, after mature reflection, is to be accepted by America, it should be provided that whenever America joins the League of Nations, then the Washington treaty shall be null and void."

Ready For Next Fight

"Our faith in the official pronouncements of 1920 is unaffected by the result of the election of that year. We stand in our very tracks, just where we were when the votes were counted. We have not retreated a step. The flag still flies and we are ready for the next fight."

This was surrounded by a wooden cross, also by the pope's coat of arms, with the Latin inscription "The Body of Benedict the Fifteenth, Supreme Pontiff, Who Lived Sixty-seven Years, Occupied the Throne of St. Peter Seven Years and Died January 22nd, Nineteen Twenty-two."

The casket was then transferred to a crypt in the left lateral nave near the right entrance to St. Peter's. Last absolution was given and Benedict XV was left to his rest beneath the flagstones which are trod by thousands of pilgrims annually.

Canned Greens

BOISE, IDAHO, January 26.—(By the Associated Press)—The death toll stood at five today in the family of Charles W. Two daughters and three sons are dead, and the father is not expected to live. Miss Bessie Clare, 15, a guest, and Russell Tuttle, another son, who also partook of the poisonous vegetables, have not yet shown symptoms of the poisoning. Tuttle's daughters preserved the greens.

Freight Rate Cut Favored
WASHINGTON, D. C., January 26.—(By the Associated Press)—Reduction of freight rates on farm products of allied industries and shipping by both railroad corporations and labor of "deflation of charges" now affecting all industries" was recommended in the railway transportation sub-committee report prepared early today for submission to the transportation committee of the national agricultural conference.

The committee declared labor should not carry the whole reduction, but the railroads should take their share, saying the railroads made \$800,000,000 profit last year when farmers lost \$7,000,000,000.

CLEVELAND, O., January 26.—Boxers under 18 years of age will not be permitted to participate in bouts here under a ruling issued today by the new Cleveland Boxing Commission. The commission also ruled that no longer will announcements of challenges be permitted from the ring.

BIG STATE ROAD TASK

COLUMBUS, O., January 26.—(By the Associated Press)—Director Herrick, of the state highway department, announced today that one of the largest state road undertakings this year will be the improvement of between 12 and 14 miles of the Cleveland, Columbus and Cincinnati road in the vicinity of Sunbury, Delaware county. About half of the section to be improved lies north of Sunbury and about half south of that point. That section of road is described as having "gone to pieces" and it is the plan of the department to replace it with an all-weather surface road. This improvement and the completion of the road through parts of Holmes, Ashland, Wayne and Knox counties, Director Herrick said, will close all gaps of the Cleveland-Columbus half of the Three C's.

Adventures Of The Twins

BY OLIVE ROBERTS BARTON

Buskins was sitting on it and smiling

ONE day Nick ate a green apple and it made him sick. So after that he and Nancy were not allowed to go near their favorite apple-tree. That was very hard to bear and more of a punishment than their mother knew, for without the magical elevator they couldn't see their fairy friend Buskins, nor could they make any more visits to the strange country of Up-in-the-Air.

The blossoms in the orchard had disappeared, so the Twins could no longer play that it was a fairy bower. It was more fun down in the meadow under their beloved chestnut-tree, the place where all their adventures began. The first daisies were out, the weather being very warm, and Nancy started to pick a bouquet for the dinner table. Nick wasn't helping much, thinking it more fun to poke for bugs and beetles in the grass.

Suddenly a voice called out, "Hello, there!"

"Hello!" answered the Twins together, looking around in a puzzled way, wondering who had spoken. But no one was to be seen. The voice was very small and far away. Indeed it seemed to come from the ground. Could it be Flop Field Mouse or Abigail Ant on one of the forest or meadow folk?

"Where are you?" called Nick. "We can't see anybody."

"Look hard," came the answer. "and see if you can't find me. I'm not as big as I was. I suppose I've shrunk in the wash." The children could hear someone laugh at his own little joke.

"Oh, there he is," whispered Nancy. "It's Buskins," and she pointed to an old dandelion gone to seed. Buskins was sitting on it smoking his pipe and smiling.

"Would you like to go to Thistle-down Land," he asked when he found he had been discovered.

Dear Dolly—We are two girls, 18 and 19 years of age. We have been keeping company with two young men of 19 and 24 for quite a while. Now these young men have proposed to us. Do you think we are too young to get married? We have been thinking on our own living for some time. We feel we would be better satisfied to settle down. We can cook and do house work.

CRUMBS.
You might be satisfied if you were settled down, but girls and boys of the ages you mentioned very seldom settle down. You might settle for a while, but you would soon get bored again. If you have good positions I would advise you to keep them a while longer, as you are too young to get married. A boy of 19 cannot obtain a marriage license. He will have to wait until he is twenty-one.

WHITEN ROUGH
CHAPPED HANDS

queeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter-pint of harmless and delightful lemon-bleach lotion to soften and whiten red-rough or chapped hands. This home-made lemon lotion is far superior to glycerin and rose water to smoothen the skin. Famous stage beauties use it to bleach and bring that soft, clear, rose-white complexion, because it doesn't irritate.—Advertisement.

Advice For Mothers

Read What This Mother Says

Conneaut, Ohio.—"Always during expectancy my back would be so stiff that I could scarcely move without help. I tried various medicines, but not until I took Dr. Pierce's Favorite Prescription did I get relief. I consider 'Favorite Prescription' a perfect tonic for the expectant mother, for it not only strengthened me and relieved me of all pain and lameness but I had comparatively no suffering, and my babies were hardy and strong—absolutely perfect—mentally and physically, which I considered due to the fact that the 'Favorite Prescription' which I took as a tonic, contained no harmful ingredient."

Mrs. Frank Luce, 23 Harbor St.

Your health is your most valuable asset. So, why not get this Prescription today from your druggist, or write Dr. Pierce, President of the 'Invalids' Hotel, in Buffalo, N. Y., for free medical advice, or send 10c for a trial pkg. of tablets.—Advertisement.

NEW BOSTON

The impressions given by "F-F" of the Toy Shop" which will appear at Glenwood high school tonight and tomorrow night, are such that one feels that he has been whirled back to the time of the time money beyond recollection. One feels childish almost to a point of infancy. One sees the heroes and heroines of his earliest youth come back to the life that had passed with Mother Goose and the Nursery Rhymes. And with them come the lost loves of the doll's house and the nursery floor. There are many dances, and effective groupings in the play, and the usual elaborateness of costumes and make-up to the performance. Miss Mary York has the leading role of "F-F".

Other roles are the following: Kathleen Adams, Mabel Kellen, Elizabeth Grandison, Martha Pettry, Virginia Elkins, Ralph Elliott, Harvey Washington, William Berley, Carl Allbaugh, Mary Edna Duncan, Ruth Kellen, Anna Mae Duncan, Ada Fremont, Margaret, Benson, Elmer, Ellder, Barbour Courts, and Jacob Housen.

After the close of the meeting a banquet was enjoyed followed by dancing, which was attended by a number of friends of the members. Such are always welcome at these after meetings.

The only cloud on the horizon to mar the evening's pleasure was the announcement that one of the dear sisters, a charter member, Mrs. Rufus Hoppes of Summit street, Portsmouth was very ill, and not expected to be here very long. All members that can are expected to visit this sister as she will leave this council for the higher council where there doth reign supreme.

YOUR CHILD'S EYES
Are they normal or defective? The answer is of utmost importance. Defective eyesight in children often causes failure in school and leads to ill health and backwardness in studies. Don't guess about your child's eyes. Let us examine them. The proper fitting of glasses now may make them unnecessary later. Isn't it worth while to find out today?

JACK DEMPSEY IS READY TO DEFEND HIS TITLE AGAINST ALL COMERS, SAYS MANAGER KEARNS

CHAMPION MAY GO TO EUROPE

NEW YORK, Jan. 26.—Jack Dempsey is eager and ready to defend his world's heavyweight title against any recognized rival and is not particular about the scene of combat, declared Jack Kearns, his manager, when he arrived here yesterday.

Kearns came east for the purpose of meeting with Promoter Tex Rickard and arranged for a conference with him today. There has been talk of Dempsey engaging the smiling Georges Carpentier in another bout in Europe this time, and there has been gossip, too, of matching the title-holder with several different heavyweights on this side.

"The big idea," said Kearns, "is to get a bout. Harry Wills, Bill Brennan, Bob Roper, Tommy Gibbons, any of them that seeks it, can have a crack at Jack. A Willie fight has been most talked of, but the promoters don't seem to warm up to the idea."

"Only in one negotiation for a title bout in the United States failed, will Jack take a fling in Europe."

Crane Is Sold

The Cincinnati management has sold Shortstop Crane to Brooklyn for \$7,500. Crane is to get a regular job in the Brooklyn infield and should make good.

To Play Ashland

IRONTON, Jan. 26.—Coach Hill is putting his high school basketball team through a strenuous week of practice in preparation for their meeting with Ashland High on the Lombard gym floor Saturday evening. The game will be the first of the season to prove the real test of the orange and black quintet.

Tigers Fortified

The purchase of the veteran George Cusshaw from Pittsburgh by Detroit, is evidence that the Tigers are going to be prepared, in case "Pop" Young fails to recover his form, due to loss of confidence in his ability.

Needs A Chance

Howard Ehmke, who experts agree has plenty of stuff, has been a failure at Detroit. Cobb doesn't seem to be able to get winning results from him. It would seem that Detroit should be able to make a good deal for Ehmke, as a lot of managers are willing to take a chance with him.

Vote Down Proposed Draft

CHICAGO, January 26.—(By the Associated Press)—The American Association today voted down the proposal of the baseball advisory council for restoration of the draft. The vote was unanimous.

The club owners met in special meeting here to consider the proposal, which carried with it a draft price of \$7,500 for each player se-

lected. This was an increase of \$2,500 over the former draft price. The American Association is the second class AA League to oppose restoring the draft. The Pacific Coast League voted against it at its meeting recently. The International League, the third class AA circuit in organized baseball, has not yet voted on the proposal.

TODAY'S SPORT ANGLE

THE sport pages carried a very interesting item the other day. "The Pacific Coast League has decided to use the rubber-center ball the coming season," read the news item.

On the surface perhaps there doesn't appear to be anything unusual about such an item. The ball player and manager, as well as the club owner, is carried an important message.

It has always been customary for the baseball leagues to use a standard ball.

At one time the rubber-center ball was generally used. Then by experiment the manufacturers of baseballs went to the use of the cork-center ball.

This was regarded as a step forward in the manufacture of baseballs. Practically all the leagues, as well as the amateurs and semi-professionals, shifted to the cork center.

There is no question but that the action of the rubber center and cork center are different. Ball players will tell there is a different feel to the ball. That is their way of explaining it.

The Pacific Coast League is one of the three big minor leagues. Its ranking is just a shade below the major leagues.

For so big a league to adopt a ball that will differ from the ball in general use is of great interest to those interested in baseball from a playing and business standpoint.

There will be an air of uncertainty attached to the records made in the coast league, because of the use of a ball that is different from the generally accepted type.

Whether or not there is anything to it, the rubber-center ball will be

given as the reason for all things good or bad, that happen in the coast league this year.

Blair To Give All Pugs Chance

Nig Blair must keep in shape. He has no alternative with so many young phenoms willing to knock his head off. But doing it is another thing. Oh, dear yes. Blair works out every day and is in tip top physical trim. He will give all challengers a crack at his head, but can only take one on at a time. No crowding, please.

Track Meet

BERKELEY, Cal., Jan. 26.—Efforts are being made to arrange a track meet here April 8 between the University of California and a big team. It is believed Illinois, Michigan or Wisconsin will be invited. Last year California defeated Michigan here.

California's track team probably will go east in June to defend its championship title at the meet of the intercollegiate association of amateur athletes of America.

Joe Bruno topped the head pin bowlers again last night, getting 97, which ties his own mark, and practically clinches one of the capital prizes for him. Reinhard broke into the select class with his 94. Ed Huels who led Tuesday, finished in third position last night.

The crowds were not so great at the Club alleys yesterday, Wednesday being a sort of off night for bowling, most of the fellows having dates or something. The number of games, however, is sure to increase during the last three days of the week, as many of the city's best bowlers have failed to put in their appearance so far, and no event like the present one could be complete without their taking a shot at the many prizes hung up. They are sure to be in on the rolling before the tourney closes Saturday evening.

Many questions have been asked about the many ties among the leading bowlers. The printers' committee in charge of the games met last night and decided that all ties would be rolled off Monday evening.

There are some good prizes left for each remaining day of the tournament and any bowler in the city is eligible to try for them, by walking up to the alleys, taking off his coat, and slipping two-bits into the ever ready hand of the printer in charge of the score sheets. The prize list follows:

Ironton Faculty Beat Wheelersburg

Last night, in the Wheelersburg high school gym, the Ironton High School faculty team of court players won a 28 to 21 victory over the Wheelersburg Selects. The game was hard fought all the way through and the professors had to work hard to annex the victory. Prof. Hall, who played center, formerly taught at Wheelersburg and was given a big hand when he came onto the floor.

Murham starred at point getting for the visitors, making ten points. Hock and Smith played well for the Selects.

The lineups:

Field Goals—Welschberger 4, Murham 5, Hall 3, Burke 4, Smith 2, O. Craycraft 2.

Saturday: Seventy Six vs. Burroughs at Parish House at 1:30 p. m.

The race in the Buckeye League decidedly lightened up when the Standard Supply took two out of three games from the Seventy Six 21-18, 20-21 and 21-4. All the players of both sides out did themselves, but Kendall was the star. In killing the ball he had only one rival—Russ Bryant who has developed a slugging power that is well nigh impossible to handle. Captain Willcox and Lewis were the killers for the Seventy Six, both doing the job up brown. George Moore was the star server of the match, sending a swift ball over that just skinned the net and was very difficult to return.

Seventy Six: Rex Willcox captain, George Moore, Smallwood, Lewis, Jones, Peck.

Standard Supply: Chester Kerr captain, Kendall, Bryant, Russell, Broadbeck, Brown.

THE CROSS CURRENTS

THERE is not so much extravagance in the country as there was for sometime before a year back. This doesn't mean altogether that people have begun devoting themselves thrift altogether, but is more of a lack of ready means than anything else.

Undoubtedly, though the public is gravitating steadily towards saving. This is shown in particular by increased investments in government securities. For it may be set down as absolutely certain that whenever the individual purchase of prime obligations begin there is more of a looking towards economy and less towards speculation.

A seemingly contradictory current to this was the marked activity in the stock exchanges of dealings in a certain steel stock. This stock took a sensational raise and all steel stocks strengthened in some degree with its advance. But the trafficking wasn't investment, it was solely gambling. Business was a trifle dull and a coterie pushed things along by getting up trades in the stock referred to. They laid their plans well and when they were working well got a long jump by starting the report that Henry Ford was buying up all he could. As soon as the word reached him he denied absolutely any such intent and the balloon collapsed.

Such maneuvers are to be looked for now and they are to be particularly discounted. Steel has a long way to go before it comes back, if such an expression be permissible. It is picking up a bit, it is going to come back, but not with a bound.

THE SAME OLD LAGGARD

A New York paper is publishing an exposure of the activities of a large combination of American interests, engaged in exploiting the oil fields of Mexico, showing how it was endeavoring to foment revolution in that country, to serve its own ends.

According to documents, secured by the paper in a way not unfolded, the interests had millions of dollars to spend for their purpose. That there is a considerable foundation to the accounts given of the activities is sustained in the fact that one of its tools is making an apparently frank statement thereof and promptly on the first hint of exposure the head of the combination resigned.

Thus we have the laggard truth come loitering along again. For years the American people were urged on towards antipathy towards Mexico and some people were wrought to a most holy excitement thereby, which demanded nothing less than a sound flailing of that distracted and unfortunate nation.

Three administrations were heatedly denounced because they would not do the job with neatness and dispatch. Now it is known why, because each one realized that back of the whole situation lay unscrupulous and wicked promoters, who considered slaughter and revolution as merely means to their own ends.

NO BUSHEL USED HERE

CANDIDATES for county offices have begun to sprout, verily they may be said to be in full bloom and scornful of any purpose of wasting their fragrance on the desert air.

They know what they want, they are going out after it, as any early bird that ever pounced on a worm and they are not a bit backward in offering reasons why they should have it. One tells his candidacy is creating spasms of delight and another the pleasure of his can scarce be contained, while another aggregates to himself the undeniable commendation that he was retained in service by a Democratic administration.

Go to it, aspirants, you are likely fellows and we are with you—until after the primaries.

There is truth, as well as luck in odd figures. John McGraw's salary as manager of the Giants is reported at \$65,000, how much more believable than if it were placed at \$50,000 or \$75,000.

Congressman Parson and Professor Fess was much impressed with our fair village. Interesting, but not so much to the gentleman with the multifarious titles as what interest the village conceived for him.

Do you know why last year was so unusual? There was no promise during the year to build that new station next year.

A wayfarer was profusely condemning our railway stations. That's all right he can't think any worse of them than we do.

Ironton's new bridge will be completed before the flowers bloom in the spring time. She should gather herself a handsome bouquet. That bridge is the biggest thing any town along the river ever did, because Ironton went out and built it herself, that is she put up all the money for it, all by her lonesome.

At the post office alterations are going on, designed to give more room in handling the mails. They are merely a make-shift. What Portsmouth needs is a new postal building entirely adequate to her needs.

Blue Laws For Gallipolis

GALLIPOLIS, O., Jan. 25.—Municipal Judge Hunsinger today ordered that soft drink establishments be closed on Sunday. The sale of gasoline, ice cream and tobacco will be permitted, but Sunday baseball and Sunday golf are placed under the ban.

LIMA, O.—Two hundred members of Lima Consistory, Scottish Rite Masons, have voted for the establishment of a Lodge of Perfection in this city.

TEFFIN, O.—Miss Edith Gertrude Kinney, former army nurse, is the first woman to join the American Legion in Seneca county. She has become a member of Tiffin Post.

New York-Day-By-Day

BY O. O. MONTGOMERY

NEW YORK, January 26.—In no other city does success come to so many with an overwhelming rush. And conversely in no other city are the fruits so bitter. The flaming beacon draws the blackmailer, the sharpers and all the brood of human jackals out of the shadows.

Only the wary may dodge the pitfalls. I visited the alcoholic ward of a hospital the other day to see a young man and his wife. His was the success that New York stamps as "over night." He had come out of obscurity into the glare only a year ago.

From a slatternish boarding house on West 57th street he found himself in the gray and pink elegance of a mammoth hotel—with electric buttons on every hand magically to flash his wants. Then the gleamers began to intrude. He was fed on flattery and lured everywhere.

In nine months they carried him to the dizzy heights and let him drop with a rush into an unred world of terrifying phantasies by day. Both he and his wife became chronic ice-bergs.

Twice he was jockeyed into an affair du coeur with scheming women and paid the price. His wife too was made the target for the skilled shysters. Life became a series of parties—but they found themselves paying the bills.

Breakfast was always preceded by a flock of morning faxes, primed with potent bootlegger's gin. He told me that each smoked a dozen cigarettes before arising to help quiet jangling nerves. And they reached that point where in flashes of sobriety they realized that they were lost and plunged deeper.

They ran up enormous bills at shops and hotels. Deputy sheriffs, armed with summonses, camped on their door steps. Old friends shunned them and they became figures in the half world along Broadway. The crash came. One afternoon an ambulance backed up and carried them away, each jabbering incoherently. The gleamers had left their bones to whiten along the Great White Way.

He showed me a note which was the only one he had received since his downfall. It was from a drug addict and said: "Some good stuff is coming in from South America shortly." That was intended to be a cheering message—a harbinger of hope.

The muzzled fox that was turned loose on Fifth Avenue the other week achieved one notable result. It got the fur dealer who acted for first page publicity in jail for cruelty to animals. He got the publicity but it was not of the kind to do him good for the newspapers went into his past with a vengeance and as a result his business has suffered. Reporters are good fellows—but never

try to fool them. They've been fooled by experts.

At the exhibit of etchings in a Brooklyn gallery there is a kindly old man who takes a great interest in showing visitors about. He carries with him a heavy magnifying glass which he loans for those who wish to inspect the etchings close up. His whole interest in life centers about the collection. The other day a visitor approached him and was handed the magnifying glass. He looked and then commented: "Why didn't the fellow who 'drew them' make them plainer?" The kindly old attendant was ill in bed two days from the shock.

The New York drama has as its prime motif, these days rollicking, smashing fist fights where the hero is, of course, always victorious. Five current plays have as the big scene bloody fistfights. In one the thing is so real and gory looking that several women have actually fainted. Another fight show heard about it and secured a dozen or so women to faint at the right moment and then called for an ambulance, and had them taken to a hospital. But somehow or other the newspapers didn't print anything about it.

Oh, earlier shall the roses blow.
Oh, earlier shall the roses blow.
In after years, those happier years,
And children weep, when we lie low,
Far fewer tears, far softer tears.

Oh, true shall boyish laughter ring,
Like tinkling chimes in kinder times!
And merrier shall the maiden sing,
And I, not there, and I not there.

Like lightning in the summer night,
Their mirth shall be, so quick and free;
And oh the flash of their delight,
I shall not see, I may not see.

In deeper dream, with wider range,
Those eyes shall shine, but not on mine;
Unmoved, unblest, by worldly change,
The dead must rest, the dead shall rest.

William Johnson Cory.

Lost and Found

"Why did you leave your last place?" asked the boss of the Irishman seeking a job.

"Talk about being behind the times," snorted Josh, as he unwrapped a forty-cent shirt he had bought at the village store. "This piece of goods is way out of date, and what's more, the newspaper it was done up in is two years old and ain't worth readin'."

"I just know my husband was at a drinking party."
"But he said he was detained down town on business."
